

**WE REPAIR THE SURGICAL INSTRUMENTS AND EQUIPMENT THAT REPAIR PEOPLE'S LIVES!**

For over 38 years in the Pacific Northwest, BPI Medical has been a leader in the instrument repair market. Now you can get that expertise on-site at your facility. BPI Mobile is a self-

contained curbside instrument repair shop able to handle most of your set repairs on-site!

*"The service provided by your team is very good. The technician who came out and sharpened the instruments sets did an excellent job. I appreciate the communication provided and the quick responses back from you. Thank you and your team!"*

*✍️ Gina Crawford, St. Charles Healthcare*

Our highly skilled mobile technicians will inspect and inventory each tray. They can repair, refurbish, sharpen and maintain most types of surgical instruments and all of your sets and trays. At the end of each appointment, the technician will provide detailed reports on usage, tracking and beyond economic repair (BER) equipment.

- Sharpening
- Alignment
- Re-insulation
- Repair
- Refurbishment
- Inventory
