PRODUCTS

We specialize in sourcing, sales, and distribution of medical equipment. Many of the products that we sell are in stock and ready to ship.

SUPPORT

We sell items from most major medical equipment manufacturers and our sales experts have years of industry experience to serve your needs for both new and used medical equipment.

VALUE

Whether you are buying new or preowned medical equipment, BPI Medical is committed to bringing you the most value at the best possible price.

Medical Equipment Sales

- BPI provides new and used medical equipment to hospitals, surgery centers, doctors' offices, laboratories, research facilities, and universities.
- Our relationships with major medical equipment manufacturers allow us to source new products that will greatly benefit your surgery center or hospital.
- Our preowned inventory offers a wide selection of used medical equipment at very affordable prices.

BPI Medical is a premier surgical and medical equipment supplier that provides both new and professionally refurbished equipment to medical professionals around the globe. BPI offers value to our customers by providing the features and reliability they need while still fitting within their budget.

Our focus is to be the single supplier for all of your operating room and surgical equipment. Our clients know that with one-stop-shopping, the purchasing process is a lot more efficient and pleasant.

BPI Medical offers the medical equipment and expertise you need to provide the best patient care. It is a privilege to sell medical technology that both exceeds our customers' expectations and improves peoples' lives around the world.
